MINING

AggWash™ 300

- Large capacity washbox
- Ensures a well fluidised material

- Rubber lined Roll out discharge chute
- Integrated oversize conveyor

- Twin shaft logwasher with angle adjustment
- Conglomerates broken up
- Organics & lights floated out

- Dual direct drives
- Enabling start up under load

- Class-leading all-around access for service and maintenance

- Rolling chutes to provide easy access for screen maintenance

- 4.9m x 1.5m (16' x 5') triple deck Terex® Cedarapids LJ-TS Series horizontal screen
- Three shaft vibrator mechanism
- Provides high G force along with the efficient oval motion

- 1.8m x 1.2m (6' x 4') trash screen
- Dewatering organics and lights

- Integrated 1 or 2 grade sand plant
- Rubber lined pumps and hydrocyclones
- Available in various configurations and capacities

- Robust modular chassis construction

- 4.9m x 1.5m (16' x 5') triple deck, part rinsing Terex® Cedarapids LJ-TS Series horizontal screen
- Producing up to 4 washed aggregates

ADDITIONAL FEATURES AND BENEFITS

- Rubber lined chutes for wear resistance
- Roll-out pump and motor
- Galvanised walkways
- Ring main water inlet complete with gate valves for precise water distribution
- Chute discharge height compatible with deep section lattice frame conveyors for larger stockpiling capacities
- Wash down hose reel (option)
- Inlet water flow meter (option)

PRE-SCREEN

- Large capacity wash box
- TSV5163 full rinser screen box - PU or wire mesh decks
- Variable stroke angle
- Elliptical throw for precise fine aperture screening
- All around walkway access
- 14 isolated spraybars
- Protection deck as standard
- Rubber lined roll out discharge chute complete with integrated oversize conveyor
- Rubber lined discharge chute
- Rubber lined catchbox

SHIPPING REQUIREMENTS

LOGWASHER 200

- All around walkway access
- Hull access doors
- Water flush rear shaft seal complete with inline water filters
- Drive end thrust bearing to protect main radial bearing
- Dual direct drive system for even torque distribution
- Shaft timing maintained through large diameter gears
- Wear sleeve on idle stub shaft
- Rubber lined discharge chutes
- Access to top of hull
- GRP Light weight durable platform

TRASH SCREEN

- High frequency, High g-force 8 x 4 screen
- PU media decks
- Rubber lined catchbox
- Rubber lined discharge chute
- Walkway access

POST-SCREEN

- Elliptical throw for precise fine aperture screening
- TSV5163 part rinser screen box - PU or wire mesh decks
- Variable stroke angle
- 6 isolated spray bars
- Rubber lined catchboxes
- Rubber lined discharge chutes
- Rubber lined Roll out discharge chute
- All around walkway access

SAND PLANT

- Linatex lined pump and cyclones
- Large variety of cyclone configurations available
- Single or double grade
- Rubber lined components for wear resistance
- High frequency, High g-force 14x6 screen
- lined discharge chute
- PU media decks
- Self regulating tank complete with control valve
- Fresh water top up inlet
- Anti-turbulence box for pump protection
- Roll out pump for ease of maintenance
- Large capacity sump tank
- Sump tank maintenance hatch
- All around walkway access
